EDUCATION

- **P.R. Pote Patil College of Engineering and Management** Amravati, Maharashtra
B.Tech in Artificial Intelligence and Data Science Sept. 2024 – Sept. 2028

EXPERIENCE

- **IBM** Remote
Artificial Intelligence and Machine Learning Intern Dec 2025 - Present
- **Google** Amravati, Maharashtra
Google Student Ambassador Aug 2025 - Present
- **P.R. Pote Patil College of Engineering and Management** Amravati, Maharashtra
Technical Head July 2025 - Present
- **Prodigy InfoTech Pvt Ltd** Remote
Web Development Intern June 2025 - July 2025

PROJECTS

- **PramaanX - Voter Authentication and Verification System:** AI-powered voter authentication platform with biometric verification and fraud prevention. Technologies: Python, Machine Learning, Computer Vision.
- **Electro Detector:** ML-powered system for analyzing electrical patterns and anomaly detection. Technologies: Python, TensorFlow, scikit-learn.
- **NyayaInsight - Legal Analytics Platform:** AI-driven legal analytics platform for case prediction and document analysis using NLP. Technologies: Python, NLP, Machine Learning.
- **Data Analytics Dashboard:** Data visualization dashboard for analyzing complex datasets with interactive charts and automated reporting. Technologies: Python, Pandas, Plotly.

CERTIFICATIONS

- **Python Full Stack Development:** Eduskil Academy
- **Data Science Certification:** Internshala Trainings
- **HackerRank Python Certified:** HackerRank
- **Gen AI Powered Data Analytics Simulation:** Tata
- **Gemini AI Certification:** Google

LEADERSHIP AND COMMUNITY

- **GDG on Campus PRPCEM - President:** Leading Google Developer Group on campus, organizing tech events, workshops, and fostering developer community.
- **Google Cloud Skills Boost - Innovator Member:** Active member of Google Cloud community, completing cloud certifications and contributing to cloud-focused learning initiatives.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, R, JavaScript
- **AI/ML Technologies:** Machine Learning, Data Analytics, Data Visualization, TensorFlow, scikit-learn, Natural Language Processing
- **Data Technologies:** Pandas, NumPy, Plotly, Data Quality, Data Reporting, Data Preprocessing
- **Cloud & Tools:** Google Cloud Platform, IBM Watson, Git, GitHub
- **Databases:** SQL, Database Design, Query Optimization
